Dear *Paul*

I refer to your correspondence dated 26 June 2013 requesting the Australian Federal Police (AFP) conduct an investigation into the unauthorised disclosure of Commonwealth information, namely a transcript of an interview between the Australian Sports Anti-Doping Authority (ASADA) and s47F

The AFP has undertaken a thorough investigation of this matter which did not identify evidence to support the allegation that s47F was in possession or had knowledge of the interview transcript. The investigation identified that it is likely s47F source of information was the Cronulla Sharks commissioned report known as the Kavanagh Report. This report is not Commonwealth information therefore its disclosure to a journalist is not a matter for the AFP.

Should you wish to discuss this matter further, please contact Federal Agent s22 on s22 or by email at s22

Thank you for referring this matter to the AFP.

Yours sincerely,

s22
