MEDICAL INFORMATION TO SUPPORT A TUE APPLICATION
CANNABINOIDS / CANNABIS

WHAT INFORMATION IS REQUIRED IN YOUR APPLICATION FOR A TUE?

ASDMAC are not able to consider a TUE application without the following information:

☐ **A completed TUE application form signed by the treating doctor and athlete.**

☐ **Detailed typed clinical letter(s) from prescribing specialist/doctor that includes:**

☐ Accurate diagnosis – full clinical history and thorough examination

☐ Summary of diagnostic test results relevant to the diagnosis (e.g. blood tests, xray or other imaging reports)

☐ Name of cannabinoid(s) prescribed including dosage, frequency, administration route

☐ Evidence of use of either the Special Access Scheme (SAS) or TGA indication (Include SAS approval certificate)

☐ Treatment plan including duration of proposed treatment

☐ Other relevant medical opinions

☐ Explanation of why alternatives (e.g. antidepressants, anticonvulsants, tramadol, capsaicin, lidocaine) were or could not be used.

NOTE: A clinical letter can be a copy of a specialist's letter to another doctor (e.g. a GP), and at least one of the clinical letters submitted with the application must have been written in the last 12 months.

☐ **Diagnostic Test Results**

☐ Imaging findings: CT or MRI results if applicable
☐ Other test results: electromyography, nerve conduction studies, blood tests if applicable

Additional information to be noted

- o Any TUE approval is for use in sport and does not imply legal authority to carry or transport cannabinoids
- o Any TUE approval does not endorse/support the use of cannabinoids but accepts that it meets the WADA ISTUE criteria

For additional information please refer to the medical information relating to your condition on the WADA website at <www.wada-ama.org>.
